CHICKEN POX ALERT

Dear Parents,

A child in our school has been sent home due to chicken pox. The following is a reminder of the symptoms and the period of communicability.

Symptoms include: Fever, pocks blisters that come in crops, most on covered parts of the body.

Period of Communicability: 5 days before until 6 days after rash appears.

Returning to school: 7 days after onset of pox or until after scabs become dry.

Remember that occasionally children that have been vaccinated may still be susceptible to chicken pox. If you have any questions please call the health room.

THANKS!
The Health Room
